**From Ellen: Yes: I hope to be endorsed by the Briones Society.**

Priorities and experience

1. If elected, what would be your top three priorities in office?
  1. Audit all income and expenses, contracts, and non-profits, trace the money back, and re-direct resources to benefit SF residents.
  2. Shelter homeless, clear out all the homeless off the streets, free the dying lost souls / homeless from the devil: homeless scam! The business will come back. Jobs will come back.
  3. End criminal activities, drug dealers and heal drug dealers! God's Holy Spirit will move these people's hearts to come back to God.

### **The Briones Society**

Once their are souls revived, they will transform their lives to serve God and other people and create a better society, with fewer police.

2. How do you measure success concerning those three priorities?
  1. Audit all income and expenses, contracts, and non-profits.--- Set up a non-city paid dept, invite retirees to do an audit, trace the money back to each community, organized by residents, benefit children, youth, parents, seniors, workers, and residents.
  2. Shelter homeless, clear out all the homeless off the streets -- declare an emergency to clean up all the streets, apply US common laws for the greater good of the majority of people, personal lifestyle is not public taxpayer problems, create jobs for people to be independent, away from the government abuse.
  3. End criminal activities, drug dealers and heal drug dealers --- work re-train all law enforcement about common laws and the US constitution, public duty for public health and safety, if people refuse but cause damages or harm to others, we, the public servants must exercise protection remove illegal activities in public streets. God will transform drug dealers and drug abusers. My new team will work with those who are willing to change. Those who break the law will be paying the consequences.
3. How has your personal or professional background prepared you to be successful in this office?

We have a total of 13 Mayoral candidates, I am the only female mother, Republican, Family Social Worker, and doing street ministries to heal drug dealers, drug abusers, and the homeless. I am the only one who is willing to risk my life to save San Francisco from the globalists and wake people up from the controlled One World Order plan. Learn more:

4. Did you support or oppose the following measures on the March 2024 ballot in San Francisco?
  - i. Don't remember
  
5. Will you support or oppose the following measure on the November 2024 ballot in California?
  - a. Proposition 47 Reform: Allows felony charges for possessing certain drugs, including fentanyl, and for thefts under \$950—both currently chargeable only as misdemeanors—with two prior drug or two prior theft convictions, as applicable. Defendants who plead guilty to felony drug possession and complete treatment can have charges dismissed. Increases sentences for other specified drug and theft crimes.

Yes, a crime is a crime. We need a strict solution to end crimes. We need leaders that follow the US Constitution and common sense laws to protect our society.

### Issues and policy

1. What is the appropriate size for the budget of the City and County of San Francisco (pop. 843,071)? What departments or programs would you cut or add to reach this number?

### The Briones Society

The current budget does not reflect good government. According to population, SF is the highest of everything, corruption, corruption, corruption. Where is the money? \$8,500 a month per homeless, where is the money?

2. How many full-time, active-duty sworn police officers should be serving in SFPD?

Why do we need police if the drug dealers and drug abusers come back to common sense?

Why do we need police if there is no crime?

Why not focus on peace through education, about God's love?

More police is NOT the answer to the current situation about SF crimes. The more police, the more crimes will come. Why? It is not about criminals, it is about a spirit, the evil spirit that most of these drug dealers, drug abusers, soulless career politicians, and many homeless possess the same Satanic, evil spirit, such as BLM or Antifa members, the spirit of hate, no peace, using a lot of profanity, lies. The Bible talks about it: The thief comes only to steal and kill and destroy; I have come that they may have life, and have it to the full (John 10:10). Deep State Coup In Democrat Party! 3. How would you change the incentives for drug tourists and the voluntarily homeless in San Francisco?

I am a Healer, a Therapist, and a Family Social Worker. I do street ministries to save the sick and the lost from the streets in San Francisco. I experience God's miracles and love to restore people from the streets. My new team will work with the public in each community to create peace through a self-regulate community, away from the current Satanic government that failed to respect common sense: creating fights between children's parents for transgender issues, etc.. When I am in the Mayor's office, many of these lost and sick people will be awakening from the devil's control. Many people will repent, return to God, and come back to life. My team will work with the faith community, to prepare jobs and new life opportunities to protect human life. Each life matters matter to God. We will transform San Francisco into a drug-free city, and restore it to a classic world-famous city for its original purpose, a city of love for tourists, come and enjoy love, beauty, seafood, and food tastes from all over the world. God will bless me and my team to give money to residents to do self-business and use their talents to be the people that God called them to be love, joy, and peace to each other.

4. SFUSD spends \$23,500 per student per year – in the top 15 percent among unified school districts in California, almost \$10,000 more than the US average, and more than two times the OECD average. Why do you think that is?

SF public schools are controlled by corrupted politicians and mafia unions, that failed to apply our US Constitution rights to protect workers and students. I and many people were wrongfully terminated in 2022. It was the unions who agreed to fire us, those who did not accept the COVID-19 vaccine. SF, no longer has a government for the people, by the people, or benefit the people. SF is an expensive city to live in, the income and expense do not match its common for teachers. If public schools continue to indoctrinate students instead of teaching love, joy, and life skills, many schools will be closing. Parents have the right to provide love and care to their kids. When I am in the Mayor's office, we will work with teachers, parents, and students to re-prioritize education subjects such as prayers, God's 10 commandments, Bible clubs, and American values: freedom of speech, press, and learn about the original government from 1776.

5. Do you support the expansion of voucher and charter school options in San Francisco so that working- and middle-class families can have the same educational choices that wealthy families do?

Yes, 101%. It is fair and good for students and parents. Why go to a school that does NOT teach basic natural human values? Why enrich the union leaders but fail the students? What do they teach in public schools now? Currently, many woke teachers work like robots, just a job, without thinking about students' future. We need creative teaching and learning, to allow children to be free from God's given talents.

6. Do you believe that SFUSD should focus on teaching core competencies like reading, writing, mathematics, and science, rather than identity politics and class conflict?

Absolutely! 101%. Our current public education system is controlled by deep state Agenda 21, now Agenda 2030, to destroy God's plan for America. God's plan for America is to be the light for the world. When I am in the Mayor's office, the entire school system will benefit students and some teachers who are common sense, but not the woke teachers for poisoning our children with identity politics.

**The Briones Society**

7. San Francisco must build more than 80,000 housing units before 2030 to comply with state law. In 2023, only 2,204 units were completed. What does the City need to do to ensure that the remaining units are built on time?

That is a lie! We currently have about 35 to 40% of empty apartments and buildings in San Francisco. We have to utilize current availability first. We need to find out how many workers, teachers, and families need affordable housing, then work with each family to get affordable housing, no more than 30% of people's total income. My new team will develop programs to stop the madness and the corruption we face in San Francisco. We are NOT stupid and we know how to use income and expense to do the math. Then we will do a citywide survey to see how many people are in SF, then re-evaluate the needs and assessment for housing and employment issues. 8. Do you support the closure of certain roadways to car traffic to create pedestrian- and bicycle-friendly parkways? If so, how would you determine which roadways should be closed?

It is human nature for security, safety, and health. Yes, if it is a common health or safety issue. No, if it is not a need. I have been living and working in SF for more than 38 years, keep doing something to the roads or public places as a way to corrupt our public funds, do you know that? Please pay attention to our public roads, it has a lot of potholes, etc. WHY?

I don't know which roads to close or fix until I am in the Mayor's office. My great new team will collaborate with residents and the local community to learn how to improve public safety.

Thank you and May God bless the Briones Society members.

Love

Ellen Lee Zhou, M.S.W.

## The Briones Society

Dear Fellow San Francisco Residents,

Are we truly living better than six years ago? If not, it's time for change. Despite increased tax revenue, our city has seen a rise in crime under the current administration. We need new leadership, new ideas, and a fresh approach to rebuild our beloved city.

As someone who ran for mayor six years ago, I, Ellen Lee Zhou, present three core promises and seven key initiatives aligned with our city's development.

Promise 1:

I pledge to reject binary thinking and embrace the principles of kindness and coexistence. As a Republican candidate, I'll champion policies that resonate with public opinion while also embracing effective measures from other parties. Let's strive for coexistence and progress.

Promise 2:

I commit to transparent oversight of taxpayer-funded projects. I'll support the efforts of non-profit organizations serving our citizens while addressing any shortcomings. My administration will ensure online transparency for all government projects, empowering citizens to hold public servants and public services accountable.

Promise 3:

I will mobilize our immigrant community to drive innovation and economic growth in sectors like AI, maritime industries, and aviation. My administration will focus on enhancing public safety, supporting families, improving education, fostering business growth, enhancing healthcare, and addressing housing challenges.

The focal point of this election is clear: We must change candidates and parties for a better San Francisco. Every taxpayer's voice matters. Do you agree?

Vote Ellen Lee Zhou for Mayor in 2024!

Sincerely,

Ellen Lee Zhou's 2024 Mayoral Campaign Team

Q & A for San Francisco Voters?

1. Do we have a homeless problem today?
2. How long has the homeless problem existed in SF?

**The Briones Society**

3. If current politicians can NOT fix the homeless problem now, why do you think they will fix the homeless problem in 2025, 2026 2027, or any other time?

Vote for common sense, vote for Ellen Lee Zhou for Mayor! New Party! New Leader! New Mission! New Vision! New Action! Together, we will end homelessness in San Francisco! We will share the resources to help our children, youth, parents, workers, businesses, and those who need support to live a quality life!
