

Bay Area Reporter Candidate Questionnaire – SF mayor

1. Candidate's name: **Ellen Lee Zhou** Cell phone: **415-920-3963**
2. Political party affiliation: **MAGA Republican**
3. Date of birth: Month: **April** Day: **7** Year: **1969**
4. Please specify your sexual orientation and/or gender identity:  
**Ellen: I am a 101% natural made by God a woman with a womb.**

Preferred pronouns: **I am a woman of God.**

5. Why do you think the Bay Area Reporter should endorse you?

**Ellen:** I am a pro-life Republican mother and a Family Social Worker. I know your group LBGTQX will NOT endorse me because I am not a Democrat. The whole city has been controlled by democratic leaders. But I love you and your group enough to spend time and complete the Q&A. I hope as individuals, you and your members can vote for me Rank choice 1, 2,3. The real San Franciscans like me want quality of life, love, peace, and joy, love to save little human beings to be born, so we can have future leaders, I don't want to see the homeless being abused by politicians, and I don't want to see drug dealers supported by democrat's failed policies by giving free needles, democrats failed policies turned San Francisco into a sink hole city, that we are laughing at by the entire world. Yet, many of you or your readers did not pay attention, did not know that many of you being brainwashed by mockingbird media, still vote for Democrat leaders who are part of the One World Order, globalists, fake government, deep state government by controlled, I am now awake from the sick and evil failed policies that destroyed San Francisco. Learn more here: <https://stopworldcontrol.com/>

**If you change your mind to endorse me** as a conservative pro-life republican mother and a Family Social Worker, that will be a historic breakthrough for me, for you, and for the entire San Francisco history!

I took the time to answer your questions, hoping to wake you up, so you can join me to protect our children, families, workers, and freedom for all. Vote for me and join me, save San Francisco together. We are victims of the deep state government. But we can change with People's power, true votes, real votes. We can support each other to fight for our God-given rights. We are all in this together fighting for freedom!

6. Public safety is a major issue in San Francisco right now. In addition to increasing sworn officers in the San Francisco Police Department, what are some other initiatives you would implement?

**Ellen:** The far-right democrat policymakers empower the criminals with failed policies. Why increase police if our society has fewer criminals? Why increase police when you can sworn in by the Sheriff as a militia to protect your community? Many of you do not know the real government we need. You always ask the questions for you, but no benefit to saving San Francisco. We, many people in 2017, went to City Hall for public hearings against marijuana shops in male neighborhoods. We opposed it so hard, At the end of the hearing, it was always approved for a patient drug, marijuana to be recreational, that was the first time, I started to pay attention to the government. I sensed something was wrong with the policymakers in city hall.

I worked for the City and County of San Francisco government for almost 20 years as a Social Worker. Along with many patriots, Christians, Catholics, and those who believe there is God, I was wrongfully terminated in 2022 because I, we, did not inject the experimental drug, covid19 vaccine, that was the second time I realized, we don't have a government to protect our rights. The worst thing is that London Breed still refused to allow us to return to work.

As your new Mayor in January 2025, my new team will re-organize our city functions according to the U.S. Constitution and common laws. Learn more from here: <http://www.reclaimingtherepublic.org/> My team will work with the Sheriff to do things, to empower anyone who is an adult will be able to protect our city like a police. Many current

police are working to earn a paycheck to pay bills, so their families can function and have food on the table. Many public workers are robots because they can not tell the truth about the government, or they will be fired from their jobs.

7. Would you retain San Francisco Police Chief William Scott? Why or why not?

**Ellen:** I love Chief William Scott as a person, but he needs to step up against unconstitutional policies. If he does not understand or is unwilling to change according to the U.S. Constitution, then he will be re-assigned for his duty. I am a person who believes in helping each other, not giving people a hard time or firing people, unless it is illegal activity. But I still believe in kindness to all workers, giving them a second chance to correct for improvement. I am always for law and order. I was an ALERT member for the police until the wicked mayor said, no vaccine, no job, no vaccine card, I couldn't volunteer.

8. Would you retain transportation director Jeffrey Tumlin? Why or why not?

**Ellen:** I don't know Jeffrey Tumlin, not sure if I ever met him yet. I have to survey his performance and feedback from the workers and from the public to decide what improve and needs to be done. I am a person who believes in helping each other, not giving people a hard time or firing people, unless it is illegal activity. But I still believe in kindness to all workers, giving them a second chance to correct for improvement. I am always for law and order. Everyone deserves to correct his or her actions.

9. Another aspect of public safety revolves around homeless encampments. Given the U.S. Supreme Court's recent decision in *Grants Pass v. Johnson*, how should San Francisco proceed regarding encampments? Where will the city make more shelter space available?

**Ellen:** Homelessness is a scam business for many of the current politicians or city leaders. They need homeless for their non-profit associates. For \$8,500.00 a month a homeless, where is the money? Why homeless are dying on the streets?

Homeless need a home or indoor place, a job, and basic needs such as a mentoring program and God's love. But what does the current administration do to the homeless? It is election time, you will see action and fake media reports about cleaning up. The question is, where do the homeless go?

By the time I am in office in January 2025, the left, sick leaders may be giving me a hard time, which I am prepared already. I will clean up the streets, with 40% empty businesses, apartments, and buildings, finding a place to house the homeless is not hard. I have been working with many homeless and understand their needs. I worked for the San Francisco government as a Family Social Worker for almost 20 years. I am a solution provider. My team will end homelessness, no more should garbage from the garbage cans to survive. My team will make San Francisco a world-classic city for tourists!

10. Do you support the goal initiated by Mayor London Breed to end transgender homelessness by 2027? How would you achieve it?

**Ellen:** If people need help, my new team will do what it takes to help, but not targeted to specific a group or a gender group. When I am in the Mayor's office, I will treat every homeless equally, I do not encourage anyone to cut their body part to get welfare. There will not be any homeless within a year when I am in the Office. My team is working hard to prepare projects to end homelessness and bring every human life back to their God-given life. A life of joy and peace. I am a woman of God, a pro-life mother, and a provider, I understand many transgender people have been used by the experimental globalists' sick and evil plan, in reality, many of the transgender people are being abused by evil doctors, putting puberty blockers to many youth people without informing parents is evil. Learn more: <https://stopworldcontrol.com/>

11. Supervised injection sites have been explored in other cities, mostly outside the U.S. In 2021, San Francisco supervisors approved purchasing a site in the Tenderloin that Mayor Breed eyed as a potential location for such a site. Since then, however, the city attorney has expressed concerns that the city should not operate such a site and that a nonprofit should run it, due to federal anti-drug laws. Additionally, state legislation to operate a pilot program in the city has been vetoed. What is your position on supervised injection sites and would you advocate for one to open in the city?

**Ellen:** I am 101% against the evil's lies to the public. Our current administration is a puppet, not able to use critical thinking skills about what is illegal versus legal, good versus evil. My team will work with drug abusers and medical staff to end drug abusers, ' illegal drugs on the open market that took away so many human lives. Many drug abusers die on the streets. We will transform them back into regular functioning productive people with jobs and be independent, away from government control. I am a Healer myself. I worked for Public Health dept. as a Behavioral Health Clinician for many years. I witnessed how sick and evil some of these city hall leaders operated. If you are a mother with a heart, you will do all it takes to stop illegal drugs to drug anyone, especially God's children. We are God's children. Every life matters to God.

12. Downtown San Francisco, as well as neighborhoods like the Castro, have been slow to recover from the pandemic's economic effects. Mayor Breed has announced ambitious plans for downtown. Do you support those plans? What can be done about smaller neighborhoods, such as the Castro?

**Ellen:** It is sad to hear so many people do not use their critical thinking skills about the planned demic was by design to destroy America. San Francisco is a "test" city for the globalist. We were lied to and being controlled by the sick and evil agenda 21 politicians. Now we are facing

40% empty business. The question to you: have you ever thought about not having problems like we are having now, but why? The sick leaders created problems for us, then presented us solutions, to make us think they did or do something.

13. Mayor Breed committed to backfilling about \$2 million in federal Ryan White HIV/AIDS cuts this fiscal year. Do you commit to backfilling future federal HIV/AIDS budget cuts?

**Ellen:** As your new mayor, I will look at expenses and incomes for the entire city, then re-direct resources to programs that benefit the community. Every community should be equally treated for their quality of life. If we have more money, we can give more, if lack resources, we can work things out according to available funds.

14. What's your philosophy on appointing LGBTQ commissioners? Do you support the ballot measure that would limit the city to 65 commissions? (The city has about 130 advisory bodies now.)

**Ellen:** Yes, I support less government control and less government abuse. The fewer the commissions, the better the government benefits all people. Many of the commissioners are for "show" purposes.

15. Do you support the \$390 million infrastructure bond?

**Ellen:** If you believe the lies about bond, then I have nothing to say. But if you are open to study about bonds vs government leaders, the history of bonds, and their usage? Who issues a bond and who follows up with bond usage? You will find your answer. It is public abuse for taxation ahead of time, using money when there is no money, keep citizens in debt all the time, which is slavery for residents. No, I don't believe the bond was meant for infrastructure. It is for the deep state to control its own globalist' agenda. My new team works to develop local policies to utilize currently available resources to fix existing problems first.

16. How would you work with the Board of Supervisors to speed up affordable housing projects?

**Ellen:** My understanding is the current administration and all Board of Supervisors violated their Oath of Office, that they are not working for the People. When you have time, you should inquire about their Oath of Office, then you know none of them for you or me or for San Francisco. The career politicians are in Office for Agenda 21, now Agenda 2030, learn more here: <https://timetofreeamerica.com/>. Look at all these deep state leaders with failing democrat policies, what do they have in common? Failed to protect our health and safety. Many businesses left, the homeless are dying and criminals are laughing at us. As your new Mayor in 2025, six new supervisors will be on board with me. The other five current supervisors, I will have coffee or tea, and lay out the ground for the People's government, if they continue to follow the deep state agenda for 2030, then my team will empower the People to exercise the U.S. constitution for militia power to protect our city and its citizens. If you have an open mind, you will vote for me Ellen for Mayor, you have nothing else to lose!

17. As the city's population ages, what is your plan to increase affordable housing for LGBTQ seniors?

**Ellen:** The entire world is aging due to a lack of new births. Agenda 21 is part of the world population control within the LGBTQX community. Why just increase affordable housing for the LGBTQX community only? What LGBTQX is so special to increase their needs only? We are all human beings. We are all God's children. As a government employee, I have been trained to do what I do for one, I do for all. I am a Jesus Christ follower that every life matters to God. As your new Mayor, my new team will work with many developers to find affordable housing for all San Franciscans, no one should be paying more than 30% of their income. Everyone deserves to live a quality of life with love, hope, joy, and peace. No one should struggle between food, medicine, and housing. May God bless the LGBTQX community.

18. Will you commit to funding the city's drag laureate position?

**Ellen:** Yes and no. Yes, if it is necessary to benefit the community, but it should be from private money, not public taxpayers' money. No, it is no benefit to the person or people or the community. I personally against minors cutting their body part due to sick medical people's bad influence. I am a woman of God, I fear God more than I fear humans. I have to follow God's plan in my life: love God and love my neighbor like myself. I do not do bad stuff against God's natural law.

19. With the owner of a preferred site in the Castro for a permanent LGBTQ museum offering it for purchase at a price several million more than the city has been willing to pay, and it having been a vacant storefront for years now, would you use eminent domain to acquire it? As mayor, what would be your plan to see this project come to fruition?

**Ellen:** If you voted me in, as your new Mayor, my team will do a survey and feedback from the impacted population. If the space is important to the local community, our new team would love to help out by working with different businesses to get things done. Why leave it empty when people need to use it? If you come up with your solution and ways to accomplish it, we then work together to get things done to benefit the community. My team will trace all this corrupted money back and re-direct it to projects that benefit residents. San Franciscans first!

20. Are you available for a Zoom meeting with our editorial board at a mutually convenient time?

**Ellen:** Yes, please tell me the date/time. Thank you.

21. Please give us the name and coordinates of the person in your campaign we should contact for any follow-up to this questionnaire.

**Ellen Lee Zhou**, myself. I am the best contact to answer any of your questions. Thank you

Name: Ellen Lee Zhou  
Position in campaign: Candidate  
Address: 2728 San Bruno Ave. SF CA 94134  
Phone: 415-920-3963
