

2024 San Francisco Mayoral Candidate Questionnaire

Please complete the ACLU of Northern California's Mayoral Candidate Questionnaire.

Complete this form by Friday, August 30th. Responses received after that date will be posted as they are received. Candidates who choose not to respond overall, or to a specific question, will have "No response provided" put as the answer.

Answer each question in at most 250 words. You may also put links to your website in your answers to supplement an answer.

We will publish all survey responses on our website following the response deadline and share them with ACLU NorCal members living in San Francisco and other San Francisco residents. Our goal is to make sure voters are informed about your position on pressing civil liberties issues impacting the city. ACLU of Northern California does not take positions for or against candidates, and will not be conducting any communications that would constitute an independent expenditure for or against any candidate.

1. What is the name of the candidate?

Ellen Lee Zhou

2. What will you do to ensure that San Francisco follows its policy to offer appropriate shelter to unhoused individuals before citing or arresting people?

Ellen: I will Re-evaluate all existing homeless scam non-profit organizations first, trace the money back, and re-direct money/resources to house all dying un-housed people on the street. 60% of the unhoused homeless people are NOT from San Francisco. My new administration will prioritize residents, workers, and families first. When I was the San Francisco Mayor in 2025, no one should be dying on the streets due to un-housed. The evil career politicians use "homeless" as a business for their political gain. Current puppet masters (<https://timetofreeamerica.com/>) will not be able to end homelessness because they "need" homeless to get public funds to run their "non-profit" scam. My new team will end the homeless scam in San Francisco. I am a Republican and I am a pro-life mother, I am a Healer / Social

Worker, and I am very good at ending social problems. Every life matters to God. We are all God's children.

3. How will you increase emergency shelter and affordable housing in San Francisco?

Ellen: 100%, my new team will work with federal and state levels to declare an emergency to clear all un-housed people off the streets, place them in "military" style medical tents, plus all available resources. We then re-evaluate all homeless people, see who are they what are they, and how long have they been abused by evil government leaders. Then, we will house them with self-skilled jobs to maintain their life away from current wicked government leaders. I have been doing street ministry for Jesus Christ, An Appeal to Heaven since 2020. I met and interviewed many drug abusers, homeless, drug dealers, and non-local street people. I found out many of the "controlled" outcomes by the wicked and sick Agenda 21/Agenda 20230(<https://stopworldcontrol.com/>) leaders, purposely corrupted the public systems. When I am in the Office, we will utilize and work with property owners to release their empty buildings to save San Francisco. With 36% to 40% empty buildings and businesses, my new team will get things done in a "humanitarian" way, which means, all people are human beings, and no one should be eating garbage from the garbage cans. We are precious in the eyes of the Lord. My team will take care of the people who need affordable housing. We will take care of the severely mentally ill with 24/7 board care. They are human beings.

4. What do you see as the role of alternatives to incarceration as a form of accountability when a person is arrested?

Ellen: As a pro-life woman of God and a Family Social Worker, I believe in a second chance of life. I believe we are facing a spiritual battle in San Francisco. We are all sinners and all of us make mistakes. I believe incarceration is necessary for criminals, who are violent and endanger society. For those who are not at risk to society, but mentally ill or unhealthy individuals, we should place them with employment training programs, provide them job training to work their life out, and help them by training them with survival skills. I personally our current prison system is NOT working to help people for second chance at life. Many of the

return criminals committed the same crimes due to basic needs such as stealing to survive. As a new Republican San Francisco Mayor, I will assess each individual's needs and strengths to train them to be independent, so they can live a life according to God's will in them. I do street ministry with ex-drug dealers, ex-criminals, ex-prostitute, etc. But they renew their life because they are willing to repent and turn from their wicked ways. God save them and use them to do good for others. As a mother, I felt pain seeing young men and women selling their bodies (prostitution) to survive. I will work with the faith community to heal their people from the streets and the criminal system. They are all human beings. Their souls and hearts belong to God, the God of Abraham, Isaac, Jacob, and America. If they are willing, my new team will be willing, yes, then God is willing.

5. What is your opinion on establishing a program (such as CART) as an alternative to police calls to respond to unhoused people, struggling with substance abuse, or in mental health crises through the Public Health Department? Please explain.

Ellen: I was an ALERT member working with the police dept. I was a Family Social Worker for the City and County of San Francisco for almost 20 years. I witnessed how politicians corrupted the public system. I watched how city leaders misused funds for their gains. I believe CART is a good program to free police. I also believe if SF, our city is crime-free, then why do we need these many robotic police? Robotic police mean many police just work for their paycheck. In reality, they can not perform tasks as police because the failed policies do not support police to do police work. As a new mayor, I will empower the police to do their job according to the US Constitution and common law. I love the fact CART does not cost the taxpayer funds compared to police. I will support law enforcement to be law enforcement, feel good for what they do, not like right now in fear.

6. San Francisco Measure E shifted certain policymaking and oversight powers related to policing and surveillance from the Board of Supervisors and the Police Commission to the San Francisco Police Department. What safeguards, oversight, or revisions would you support to provide protections for the rights of people in San Francisco?

Ellen: If you understand what common law and the U.S. Constitution are, then you know, we, in San Francisco do not have a government for many years. We have a deep state or shadow globalists' One World Order government. The government is supposed to be controlled by the "People". But currently, London Breed acts like "God". She wrongfully terminated all UN-vaccinated public taxpayer workers in 2021 and 2022. When SF required a vaccine card to dine inside a food court, then we did not and we still do not have a People government. As of today, August 12, 2024, all Public health workers in SF still require COVID-19 shots or no job. We have not had a People government for many years. Until today, we still have 32 active lawsuits against London Breed for wrongfully terminated all unvaccinated workers. London Breed still refused to re-instate all unvaccinated workers. As your new mayor, I will re-instate all unvaccinated workers back to work ASAP. What you see in the current SF city hall, is run by Agenda 2030 puppet masters, and sick globalists representatives. They are nothing but tyrants and communists. When I am your new Mayor in 2025, I will give back the power to each neighborhood to monitor their community income and expenses according to their desire. People know how to work their local community needs. The government should stop out of the People's business. I will invite businesses back to monitor public servants. The current police systems failed to protect our public safety and health. My new team will re-train residents to take control. I will work with the Sheriff to admonish PEOPLE to do their commission, for the People, by the People. I am for San Francisco first. I am for America first. I opposed wars that are happening now. I support closed borders. I am for legal immigration. I stand up against all odds to run this impossible mayoral campaign. We have 13 mayoral candidates. I am the only conservative pro-life Republican with a sound mind. May God bless the ACLU to defend lives. May God open the heavens to stop the madness and lies in SF city hall soon. Thank you. www.MayorEllen.com I love you all.
