

**San Francisco Climate Emergency Coalition Mayoral Candidate
Questionnaire/Please respond by Aug 15 end of day**

SFCEC 2024 Election Questionnaire – Mayor

In the past 5 years, we have seen adverse climate-change impacts with greater frequency and causing more damage than expected. We are in a climate emergency. The causes of global heating and the steps to address it vary widely but we know that cities are responsible for 70% of global greenhouse gas emissions. That means local elected officials must actively engage to ensure local action is taken.

The San Francisco Climate Emergency Coalition (SFCEC) has advocated for local climate actions since 2019, including:

- 1) Initiated discussions leading to the San Francisco Climate Emergency Resolution.
- 2) Successfully advocated for the All Electric New Construction ordinance.
- 3) Successfully advocated for funding climate staff positions at SF Environment.
- 4) Successfully advocated for establishing and funding the Climate Equity Hub.
- 5) Advocated for funding to implement SF’s Climate Action Plan.
- 6) Coordinated letter/e-mail/phone actions in support of climate policies before the Mayor, Board of Supervisors, and City agencies.

As we approach the November election, our members and allied organizations must understand candidates' positions on the climate crisis. Please fill out and return this questionnaire.

* Indicates a required question

Email* **Ellen@MayorEllen.com**

Candidate Name: **Ellen Lee Zhou**

*

- 1) How familiar are you with the City’s updated Climate Action Plan?

Ellen: I'm unfamiliar with it because our administration and most politicians and leaders don't run government to protect our city. San Francisco has been controlled by shadow deep-state globalists' One World Order government. Climate Change is

a hoax! I learned from here: <https://stopworldcontrol.com/> I was a Farmer and lived on a farm. I've learned God made the world and God supplies water, air, and everything we need. We don't lack any natural supply. Climate change is controlled by HAARP machines. I now learn more and more from the great awakening!
<https://timetofreeamerica.com/>

- 2) Please list what you have done to advance climate action and climate justice in San Francisco.

Ellen: I don't buy the lies about unnatural controlled weather by HAARP machines. I live my life according to God's plan, love God, and love my neighbors like myself. I love human life. Everything else is a man-made problem. God opened my spiritual eyes to see the lies the deep state government we face in San Francisco: homeless are dying, drug dealing welcome, freed drug needles to support drug dealers, crimes are out of control, car-break ins are non-stop, are any of these social issues part of the scam: climate change?

- 3) What ideas do you have for leading climate action in San Francisco in the next 5 years? What are the key actions that San Francisco must take?

Ellen: When I am in the Mayor's office, you can come to my office to educate me on what you know, and then I will give you the facts about weather modification machines controlled by deep state globalists, using HAARP machines, anything mandates to enforce is about freedom taking away! God created the world and God supplies everything we need to live happy and quality lives. But the sick and evil elites using mockingbird media to lie to you and me on purpose. I don't believe the lies. My job as a Mayor is about public health and public safety. The Climate hoax is NOT going to work in my administration. You can learn more here:

<https://stopworldcontrol.com/>

- 4) In addition to climate action, San Francisco has numerous other pressing needs. How would you manage these conflicting demands on resources?

Ellen: Who said Pressing needs? Why so pressing? I do not accept lies to be facts. Mockingbird media with the Agenda 2030 message is not going to work with my new team. God open my eyes to see the truth vs lies. I was born and raised on a farm. I am a natural person and I believe God creates, God provides. HAARP machines and weather modification or Chemtrail are not going to work with me. You can learn more here: <https://stopworldcontrol.com/>

5) What strategies would you use to obtain the necessary funding that ongoing climate action will require?

Ellen: As your new Mayor, if things are facts, I will do all it takes to fund necessary programs to provide public health and public safety to ensure every San Francisco live a happy and liberty life in San Francisco. We will focus on crime-free, homeless-free, illegal drug-free, and affordable housing for a quality life for everyone. My team is working on making San Francisco a world-class tourist city for tourists to enjoy no-climate change plants and parks. As I am answering your answers, I feel sorry for you as a person and as an agency that believes the lies about climate change. Go outside to walk on the beach or hike on a mountain, listen to nature, and watch how trees or leaves sing, you will know God creates, God provides, and made man HAARP machine to change weather to create lies about climate change

See more: <https://stopworldcontrol.com/>

6) What strategies would you propose to ensure that SF's infrastructure projects, from approvals to building code revisions to street and sidewalk repair to capital maintenance, incorporate the necessary climate-change actions to avoid expensive changes required later as climate impacts worsen?

Ellen: As your new Mayor, I will return the power to San Franciscans, minimize government tyranny, reduce government interference, and allow residents to build and enjoy their fruit and labor for their desire for infrastructure. I am a Constitutionalist and I believe in People power. If you are a normal resident in San Francisco, you would know something is wrong in San Francisco City Hall: leaders abuse their power! Why would you keep asking about things you have the power to change? I lived and worked in San Francisco for 38 years, I watched and witnessed how career politicians and deep state actors and actresses lied to us, the people. My new team will create militia groups for the self-care community, with no need for the government to interfere. I will start with tracing taxpayers' funds back first, so residents in each neighborhood can have money to take care of their own needs to avoid "climate" impacts. <https://stopworldcontrol.com/>

7) How would you coordinate and streamline climate action across all City departments and agencies?

Ellen: As your new Mayor in January 2025, my job is to reform San Francisco, back to a common sense city with a natural ability to understand human nature, so that everyone will be able to prosper. We will fund individual projects to empower People's power, not organized and controlled lies! After you study from: <https://stopworldcontrol.com/>, and from: <https://timetofreeamerica.com>, If you still insist on your climate change or action, we can meet and discuss facts vs man-made weather modification by HAARP machine. San Francisco is a "test" city for the deep state Agenda 21 (failed), now called Agenda 2030. I will learn more from each dept. about their corruption vs reality. My new team will know after we do surveys from "impacted" areas or groups or residents. We have been blinded and misled by mockingbird media about "climate change". The natural climate will always change like you and me, each person always changes, born, old, sick, and then dies! It is called human life. It is called natural life. God created heaven and earth for us to enjoy, not to fear. My new team will respond with facts, not lies or fear! Peace for all people. Save yourself from lies, save San Francisco from Agenda 2030, and vote Ellen for Mayor. Together, we will re-birth San Francisco with God's truth and love, a city everyone loves to be part of. www.MayorEllen.com Thank you and may God bless you.
